✉ vigneshwaranit2222@gmail.com ☎ 9787137322 📍 Chennai, Tamilnadu

SUMMARY

Motivated MCA graduate with hands-on experience in Python, FastAPI, PostgreSQL, and AI-powered application development. Skilled in developing scalable backend applications, AI-powered RAG solutions, and database-driven systems. Passionate about Artificial Intelligence, backend development, and continuous learning. Seeking an AI/ML Computational Science Associate role to contribute to innovative AI solutions and business transformation.

WORK EXPERIENCE

AI INTERN, coirei company

May 2026 - Present

- Designed and optimized AI workflows by integrating backend services, improving application scalability, response time, and overall system performance
- Participated in debugging, testing, and deploying AI applications while following coding standards, version control (Git), and Agile software development practices.

PROJECTS

LMS Backend System (Backend Developer)

Tech Stack: Python, FastAPI, PostgreSQL, SQLAlchemy, JWT

- Developed REST APIs for Attendance, Notifications, Courses, Users, and Dashboard.
- Designed secure authentication and authorization.
- Optimized database queries for better performance.
- Built scalable backend architecture following REST principles.

Follei Platform (AI Developer)

Tech Stack: Python, FastAPI, PostgreSQL, AI Integration

- Developed APIs for Leads, Customers, Conversations, and Messaging.
- Implemented SMS automation and backend integrations.
- Resolved API issues and improved backend functionality.
- Participated in AI feature research and implementation.

RAG Application (AI Developer)

Tech Stack: Python, FastAPI, ChromaDB, LLM, RAG

- Built an AI-powered document question-answering system.
- Implemented document chunking and vector embeddings.
- Integrated Large Language Models for contextual responses.
- Designed scalable RAG architecture.

EDUCATION

Master of Computer Applications(MCA) - Periyar University

MAR 2023 - APR 2025

Bachelor of Computer Applications(BCA) - Periyar University

MAR 2018 - APR 2021

ADDITIONAL INFORMATION

- **Technical Skills:**
 - Programming skill:** Python, SQL
 - Python Libraries:** Pandas, NumPy
 - Backend:** FastAPI, REST APIs, SQLAlchemy, Pydantic
 - Database:** PostgreSQL
 - AI:** Machine Learning, Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering.
 - Tools:** Github, Docker
 - Concepts:** Object-Oriented Programming (OOP), Data Structures, Software Development Life Cycle (SDLC), API Development, Backend Development
- **Core Strength:** Problem Solving, Analytical Thinking, Team Collaboration, Continuous Learning, AI Application Development
- **Languages:** English (Professional Working Proficiency), Tamil (Native)
- **Certifications:** Genrative AI Certificate, Python Programming Certificate
